

Let's Build Construction Camp for Girls is a program designed for middle school and high school age girls to attend a free week-long camp to explore **architecture, engineering, and construction** through hands on experiences and fieldtrips.

CAMP OBJECTIVES:

- Provide girls an opportunity to explore a career in the construction industry in a gender-neutral environment.
- Learn basic design/drafting, basic engineering, and hands on learning of the construction trades.
- Enjoy construction-related fieldtrips throughout the week.
- Develop greater self esteem by teaching skills to solve challenging projects and successfully complete them.
- Provide inspiration and mentoring for girls to understand they have a place in the construction industry, and they can become successful leaders in the future.
- Develop a stronger workforce for the future of the construction industry.

WHY SUPPORT LET'S BUILD?

This unique construction camp program will introduce girls to the opportunities that will await them within the construction industry. Please join members of ACE Mentor Program, Associated Builders & Contractors Eastern PA Chapter, and Construction Specifications Institute Greater Lehigh Valley Chapter to support and inspire the youth in our Lehigh Valley community.

The goal is to ignite the spark within the girls to explore additional skill training in our local career technical schools, and post-secondary training with a local craft training program, two-year and/or four-year college path in engineering, architecture, construction management, or any other construction-related major.

Your support is needed to ensure the camp is free of any charge to the families.

We hope you will join with us in this positive effort to introduce girls to the world of construction by becoming a sponsor of the Let's Build Construction Camp.

Proceeds raised will benefit the Let's Build Construction Camp for Girls and the ACE Mentor Program-Lehigh Valley Chapter. ACE Mentor Program is a 501c3 non-profit organization, and your donation is tax-deductible.

The ACE Mentor Program of America, Inc. (ACE) helps mentor high school students and inspires them to pursue careers in design and construction. The mission is to engage, excite and enlighten high school students to pursue careers in architecture, engineering, and construction through mentoring and to support their continued advancement in the industry.

If you have any questions about sponsorship, Let's Build Construction Camp or ACE Mentor Program please do not hesitate to contact Kristen Fallon at 610.821.9686 or kfallon@abceastpa.org
